Other important points to keep in mind:

***This shahada made our day! This shahada is now your new focus. Make sure that you act fast, take action right now, as soon as possible, don't delay! Realize that shaytan is going to be on their case. His main goal is to make them regret and ultimately denounce their new oath. Shaytan is mad that another soul has returned to its Lord and he will go to all means to try to bring them back to kufr.

***Remember that it is your own personal responsibility as a da'ee to follow up with the new Muslim; you are the one in the best position to do it as you have already built a relationship with him/her.

***Download the shahada application (next page)

***Encourage them to attend the weekly New Muslim Training Class making them ready to grow and to learn more.
